

2019 PA SPEEDWEEK FORMAT

TIME TRIALS: Time trials will be single car with order determined by a blind draw. Each track has the option to conduct one or two lap time trials. Any driver missing their assigned spot by more than two positions will get one lap at the end of time trials and will not make the invert for the heat race.

HEATS RACES – Individual speedway to determine number of heat races. General guideline is:
Less than 20 cars – 2 heats; 21 to 31 cars – 3 heats; 32 to 47 cars – 4 heats.

Fastest cars from time trials start heat races in the fourth position. Remainder of line-up to be heads-up from time trials. Qualify 8 from two heats, 6 from three heats and 5 from four heats.

Feature line-up to be heads-up from heat finishes after draw eligible cars.

Draw eligible cars include fastest time trial car from each heat that finishes in a qualifying position and the heat race winners. There will be 6 cars draw eligible with a three-heat format and 8 cars draw eligible with a four-heat format. Draw eligible drivers will draw individually for starting positions in the feature.

B-MAIN: The B-main will be aligned in the following manner: The fastest two cars from time trials that do not qualify through the heat race will start first and second respectively. The remainder of the B-Main line-up will be heads up from the heat race finish.

FEATURE: Line-up to be inversion cars followed by heat race finishers in heads-up order. B-Main qualifiers will line up behind all heat race qualifiers in the order from the B-Main finish.

RESTARTS: All restarts will take place with the lead lap cars moved to the front of the field. Lapped cars will pull to the inside and fall in behind the last car on the lead lap in their order of running.

POINT STRUCTURE:

TIME TRIALS: 40-35-30-29-28-27-26-25-24-23-22-21-20-19-18-17-16-15-14-13-12-11-10-9-8-7-6-5-4-3-2-1-1-1-1
